EXPERIENCE

Team Leader & Full-Stack Developer (Mobile & Backend)

[Athar \(School Project\)](#)

Sep 2024 – Present

- Led a team in a competitive school project that entered multiple local tech competitions, managing planning and task delegation.
- Developed the backend API with Node.js, Express, and MongoDB, and built the mobile app using React Native with Expo.

The project was selected repeatedly to represent our school due to its technical quality, and teamwork — earning recognition at several events.

Front-End Developer

[Badraan's Terminal](#) (My Portfolio)

May 2025

- Was a test for my creativity to create something completely unique and aesthetic.
- Showed my React skills because of the technical difficulty in simulating a terminal.
